

The Future of Skin Care Now - Skin Probiotic Technology

Physicians agree: probiotics are essential for healthier, more radiant skin.

Smooths - Brightens - Protects - Strengthens - Balances

Science Finally Proves You Really Are Superhuman

Your body contains more bacteria than it does human cells. Science has identified this “layer of bacteria” as an “invisible body organ” called your human microbiome. BioEsse is a revolutionary skin care system containing the first and only bio-identical probiotic essence supporting good bacteria on your skin, helping keep your skin microbiome healthy.

Beautiful, intelligent skin care, containing skin-harmonizing probiotic technology.

Beauty-Promoting Properties

of the Bio-Identical Probiotic Essence for the Skin

In a 4-week clinical study with the BioEsse system*:

- 100% of participants reported improved skin texture & smoothness
- 94% reported improved skin quality overall
- 83% reported less facial redness

In an 8-week clinical study with the BioEsse system*:

- 100% reported a more even-toned facial complexion
- 93% reported a smoother skin texture, increased skin luminosity & softer feel to facial skin
- 87% reported a younger facial appearance and firmer-feeling facial skin
- 80% reported less facial redness

*4 week clinical study of 21 participants, 17 female, 4 male; 8-week clinical study of 17 participants, 15 female, 2 male.

Health-Promoting Properties

of the Bio-Identical Probiotic Essence for the Skin

Numerous scientific studies showed the Bio-Identical Probiotic Essence acts at 4 levels to:

- Promotes a healthy balance of the skin's friendly bacteria
- Helps protect the skin barrier through FilaggRenew™ Technology
- Enhances moisture levels in the skin
- Supports healthy skin immunity

Step 1 — The BioEssential Hydrating Cleanser

Refine and refresh the complexion with this luxurious probiotic and lavender-infused botanical cleanser. Specially formulated to soothe delicate facial skin.

Step 2 — The BioEssential Rejuvenating Serum

Rejuvenating the face with bio-identical probiotic extract, this jasmine-infused serum creates immediate luminosity with an intense dose of hyaluronic acid, proprietary green tea extracts, and the healing essential oil, frankincense.

Step 3 — The BioEssential Renewing Facial Lotion

Energizing with bio-identical probiotic essence and relaxing with tropical frangipani, this facial lotion leaves skin smoother, more youthful and more radiant, while it replenishes the skin with anti-aging kokum butter, ceramides and botanical omega fatty acids.

Step 4 — The BioEssential Regenerating Eye Cream

Uniquely formulated for the delicate eye area, this lavender-infused silky cream revitalizes for smoother, more even-textured skin. Mega-dosed with bio-identical probiotic extract, it also contains anti-aging kokum butter, ceramides, antioxidant omega fatty acids and hydrating NMFx™ technology for immediately improved skin texture.
